Professional Summary
Highly skilled Senior Integration Consultant with over 10 years of experience in software development, specializing in integration solutions, cloud-native technologies, and enterprise architecture. Proven expertise in leading technical teams, designing end-to-end integration architectures, and implementing scalable solutions for banking systems. Recognized as a Kubestraunaut by CNCF and Linux Foundation, with advanced certifications in Kubernetes (CKA, CKAD, CKS) and cloud-native technologies. Passionate about learning and adopting new technologies to drive innovation and deliver business value.

Core Competencies
- Integration Platforms: IBM WebSphere Message Broker, IBM Integration Bus (IIB), App Connect Enterprise (ACE), IBM MQ, WSO2 API Manager
- Cloud & Containerization: Kubernetes, Docker, Istio, IBM Cloud Pak for Integration
- Programming Languages: Java, Python, Golang, Bash, JavaScript, PHP
- Web Development: J2EE, Node.js, Django, HTML5, CSS3, Bootstrap, jQuery
- Databases: Oracle, DB2, PostgreSQL, MySQL, PL/SQL, NoSQL (Couchbase, MongoDB, Redis)
- DevOps Tools: Jenkins, CI/CD pipelines, automation scripting
- Other Skills: TCP/IP socket programming, API design, OOP principles, Agile methodologies

Professional Experience
Senior Integration Consultant
Ejada Systems Ltd. (Al Rajhi Bank) – Riyadh, Saudi Arabia
October 2022 – Present
- Analyze business requirements and design end-to-end integration solutions for enterprise clients.
- Lead cross-functional teams to implement robust integration architectures using IBM ACE, MQ, and API Connect.
- Provide technical guidance and mentorship to team members, ensuring high-quality deliverables.
- Collaborate with stakeholders to align integration strategies with business goals and industry best practices.

Technical Team Lead
Ejada Systems Ltd. (Al Rajhi Bank) – Riyadh, Saudi Arabia
February 2018 – October 2022

- Conduct detailed analysis of business requirements and translate them into technical specifications.
- Design and implement integration services for major banking clients, including Al Rajhi Bank and ADIB.
- Manage a team of integration engineers, ensuring timely delivery of projects and adherence to best practices.
- Act as the primary technical reference for complex problem-solving and architectural decisions.
- Spearhead the adoption of cloud-native technologies, including Kubernetes and Istio, to modernize integration platforms.

Senior Integration Engineer
Ejada Systems Ltd. – Riyadh, Saudi Arabia
November 2015 – February 2018
- Develop and maintain integration solutions using IBM WebSphere Message Broker and IBM Integration Bus.
- Design and implement middleware layers for banking systems, including the SADAD Online Payment Project.
- Support migration projects from legacy systems to newer platforms (e.g., WMB V6 to IIB V9).
- Optimize message flows and ensure high availability and fault tolerance in mission-critical systems.

Integration Engineer
Ejada Systems Ltd. – Riyadh, Saudi Arabia
October 2012 – November 2015
- Create and maintain integration services using WebSphere MQ and IBM WebSphere Message Broker.
- Configure and manage application communication through message queues and brokers.
- Provide ongoing support for existing integration solutions, ensuring minimal downtime and optimal performance.
- Collaborate with development teams to troubleshoot and resolve integration-related issues.

Co-Founder
FunWave – Alexandria, Egypt
August 2011 – October 2012
- Lead the development of backend systems using PHP, Couchbase, MySQL, and MongoDB.
- Implement real-time communication features using Node.js and Socket.IO.
- Integrate social media APIs (e.g., Facebook Graph API) to enhance user engagement.
- Develop frontend interfaces using HTML5, CSS3, JavaScript, and ActionScript 3.

Web Developer (Intern)
MK Hoster – Alexandria, Egypt
August 2010 – October 2010
- Develop and customize websites using Joomla CMS.
- Create custom Joomla extensions and themes using PHP, HTML, and CSS.

Education
Bachelor of Computer and Systems Engineering
Faculty of Engineering, University of Alexandria
Class of 2011
- Graduated with honors (Excellent degree).

MBA from Arab Academy for Science, Technology and Maritime Transport (aast)
Currently in progress

Certifications
Kubernetes and Cloud-Native Certifications
- CNCF Kubestronaut – The Linux Foundation
- CKA: Certified Kubernetes Administrator – The Linux Foundation
- CKAD: Certified Kubernetes Application Developer – The Linux Foundation
- CKS: Certified Kubernetes Security Specialist – The Linux Foundation
- KCNA: Kubernetes and Cloud Native Associate – The Linux Foundation
- KCSA: Kubernetes and Cloud Native Security Associate – The Linux Foundation
- Containers, Kubernetes, and Istio on IBM Cloud – IBM
- Beyond the Basics: Istio and IBM Cloud Kubernetes Service – IBM
- Getting Started with Microservices with Istio and IBM Cloud Kubernetes Service – IBM
- Operating Kubernetes on IBM Cloud – IBM
- Containers & Kubernetes Essentials – IBM
- CKA Certification Course - Certified Kubernetes Administrator – KodeKloud
- Kubernetes for the Absolute Beginners (Hands-on Tutorial) – KodeKloud

IBM Certifications
- Cloud Pak for Integration Sales Foundation V2 – IBM
- Cloud Pak for Integration Technical Sales Intermediate – IBM
- Cloud Pak for Integration Essentials – IBM
- IBM API Connect v2018 API Skills – IBM
- IBM API Connect 10 Developer – IBM
- Docker Essentials: A Developer Introduction – IBM
- IBM App Connect Enterprise V11 Application Development – IBM
- IBM App Connect (iPaaS) Essentials – IBM
- IBM MQ Developer Essentials – IBM

WSO2 Certifications
- WSO2 Certified API Manager Practitioner - V4 (API Management Profile) – WSO2
- WSO2 Certified API Manager Practitioner - V4 (Micro Integrator Profile) – WSO2

Programming and DevOps
- Docker Mastery: with Kubernetes + Swarm – Udemy
- Docker Training Course for the Absolute Beginner – KodeKloud
- Learn Ansible Basics (Beginners Course) – KodeKloud
- DevOps Pre-Requisite Course – KodeKloud
- 12 Factor App – KodeKloud

Notable Projects

Al Rajhi Bank
- Role: Technical Team Lead
- Designed and implemented integration solutions for the bank's digital transformation initiatives.

Ministry of Finance (MOF)
- Role: Technical Team Lead
- Implemented and deployed middleware layers for seamless communication between MOF systems and external Systems.

ADIB Bank MW Project
- Role: Technical Team Lead
- Architected and deployed middleware layers for seamless communication between banking systems.

SABB WMB Migration Project
- Role: Senior Integration Engineer
- Migrated integration layer from IBM WebSphere Message Broker V7 to IBM Integration Bus V9.

Riyadh Bank
- Role: Senior Integration Engineer
- Migrated integration layer from IBM WebSphere Message Broker V7 to IBM Integration Bus V9.
- Implementation of SADAD OLP project

Alinma Bank
- Role: Integration Engineer
- Support and implement integration services

Mobily
- Role: Integration Engineer
- Support and implement integration services

Skills Overview
- Leadership: Team management, task delegation, and mentoring.
- Development: Integration, web, and mobile app development.
- Tools & Technologies: IBM ACE, MQ, Kubernetes, Docker, Jenkins, Python, Java, Node.js.
- Databases: Relational (Oracle, MySQL) and NoSQL (MongoDB, Redis).

Languages

- English: Fluent (Reading, Writing)
- Arabic: Native
